# Auto giants focus on CNG at Delhi-Jaipur highway

Abhishek Tiwari @abhishekt00

Vehicle makers are coming forward to use CNG gas on the Delhi-Jaipur highway after Rajasthan State Gas Limited (RSGL) has started the CNG outlets on this route. Keeping this in mind, auto manufacturer SML Isuzu Limited has recently introduced its first CNG vehicle on this route.

Giving the information, RSGL's managing director Ravi Agarwal said that this was the first flag off of CNG vehicle in the state and facilities to expand the infrastructure are also being developed soon.

"This is the first flag-off of CNG vehicle in the state, it will

promote green energy on this corridor," he said speaking to dna.

In a wake of the growing awareness towards CNG as clean energy and various orders of the tribunals related to old diesel vehicles,

officials expect that more and more companies will step in manufacturing of CNG vehicles in the coming days increasing the number of such machines running on Delhi-Jaipur route, which is the

## NEXT ON NH-8

first green corridor of the state .

Sources informed that in coming times, CNG facility will also be available at Kota, where two IOCL pumps will be supplying this clean fuel. Moreover, the in-

dustrial requirement in the zone like Behror, Shahjahanpur, Khushkhara among others and specially Bhiwadi will also be catered.

Notably, in this region, a ceramic zone would come and will require CNG, which will be supplied from Neemrana terminal, informed the sources.
